CHARIS FILIS

Electrical & Computer Engineer | AI/ML Engineer | Full-Stack Developer

Naoussa / Thessaloniki, Greece · harry.filis@protonmail.com · 697 243 4854 · charisfilis.github.io · GitHub

Last updated in May 2026

SUMMARY

Multidisciplinary engineer with a Diploma (MEng) in Electrical & Computer Engineering from Aristotle University of Thessaloniki. Practical experience in AI/ML, computer vision, full-stack development, and systems engineering. Strong hands-on skills in Python, PyTorch, CUDA, Docker, and cloud deployment. Motivated to deliver scalable solutions and continue building expertise in cybersecurity and distributed systems.

EDUCATION

Diploma (MEng) *Oct 2017 – Dec 2023*
Aristotle University of Thessaloniki, Electrical Engineering & Computer Engineering
Thessaloniki, Greece
Thesis (Grade 10/10): 3D Neural Surface Representation from Images Using Deep Neural Networks with Emphasis on High-Frequency Encoding of 3D Content
View thesis on ikee.lib.auth.gr
Relevant Coursework: Software Engineering, Deep Neural Networks, Computer Architecture, Distributed Systems, Digital Image/Video Processing, Cybersecurity

M.Sc. Communications Networks & Cybersecurity *Oct 2024 – Oct 2025*
Aristotle University of Thessaloniki, Thessaloniki, Greece
Hands-on coursework and practical labs completed

TEE Vocational Training Program *Expected Aug 2026*
Technical Education and Training, Greece

Military Service Completion *2024*
ΚΕΠΥΕΣ (Greek Armed Forces Technical Training Center)

EXPERIENCE

Loceye I.K.E., Software / ML / Networks Engineering Intern *Oct 2021 – Feb 2022*
Thessaloniki, Greece
• Improved deep learning models for eye-tracking and facial feature detection, raising inference robustness
• Managed application server stack (Django, MongoDB) and containerized services with Docker
• Provided network engineering support and configured IT communications infrastructure

PC Service Naoussa, IT Technical Support Technician *Nov 2024 – Sep 2025*
Naoussa, Greece
• Built and repaired custom PCs; diagnosed motherboards, hard drives, and GPUs
• Designed NAS and home-server solutions; performed data recovery from damaged storage media

PROJECTS

3D Neural Surface Representation with High-Frequency Encoding *2023*
Implemented deep-learning pipeline in Python (PyTorch, CUDA) for textured 3D reconstruction from sparse images. Diploma thesis project demonstrating cutting-edge neural rendering techniques.
Tools: PyTorch, CUDA, Sphere Tracing, 3D Rendering principles

GitHub Repositories *Ongoing*
Collection of academic and personal projects in computer vision, neural networks, graphics, and systems engineering. Visit github.com/harry-filis

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, Java, Shell Scripting, SQL, MATLAB/Octave
ML & Computer Vision: PyTorch, TensorFlow, OpenCV, CUDA, Scikit-learn, Keras

Web & Backend: Django, Flask, FastAPI, Node.js, Express, React.js
DevOps & Cloud: Docker, Nginx, AWS, Google Cloud, Git
Databases: PostgreSQL, MySQL, MongoDB
Embedded & Hardware: Arduino, Raspberry Pi, STM32 Nucleo, OrCAD
Languages: Greek (Native), English (Proficient – C2)

CERTIFICATIONS & COURSES

- Deep Learning and Computer Vision – AIIA Lab, AUTH
- Node.js, Express, MongoDB & More: The Complete Bootcamp – Jonas Schmedtmann (Udemy)
- Deep Learning: Advanced Computer Vision (GANs, SSD, +More!) – Lazy Programmer Inc. (Udemy)
- Wireshark: Packet Analysis and Ethical Hacking: Core Skills – David Bombal (Udemy) [In Progress]

CONFERENCES & WORKSHOPS

- Computer Vision & Machine Learning Seminar (CVML) – AIIA Lab, AUTH (Aug 2022)
- SMAuto Workshop | DSL in IoT – ISSEL Lab, AUTH (Jul 2023)
- Locsys Workshop | No-Code IoT – ISSEL Lab, AUTH (Dec 2023)
- Arduino Workshops (IEEE SB DUTh) (Mar 2018, Apr 2019)
- 11th & 12th Student Conference of Electrical & Computer Engineers, Thessaloniki (Apr 2019, Apr 2021)

RESEARCH & ACADEMIC ACTIVITIES

- Machine learning research experience in SVMs, VAEs, GANs, RNNs, Reinforcement Learning, and Unsupervised Learning
- Workshop organization and mentoring with IEEE Student Branch at AUTH (2018–2019)
