

CHARIS FILIS

Electrical & Computer Engineer | AI/ML Specialist | Full-Stack Developer

Naoussa / Thessaloniki, Greece · harry-filis@protonmail.com · 697 243 4854
GitHub: github.com/harry-filis · Portfolio: charisfilis.github.io

SUMMARY

Multidisciplinary engineer with a Diploma (MEng) in Electrical & Computer Engineering from Aristotle University of Thessaloniki. Proficient in AI/ML, computer vision, full-stack development, and embedded systems. Demonstrated expertise in Python, PyTorch, CUDA, Docker, and cloud deployment. Passionate about building scalable, edge-based solutions and advancing cybersecurity practices.

EDUCATION

Diploma (MEng) in Electrical & Computer Engineering · *Aristotle University of Thessaloniki* · Oct 2017 – Dec 2023

Grade: 10/10 — 3D Neural Surface Representation from Images Using Deep Neural Networks with High-Frequency Encoding

- Thesis available: ikee.lib.auth.gr
- Relevant coursework: Software Engineering, Deep Neural Networks, Computer Architecture, Distributed Systems, Digital Image/Video Processing, Cybersecurity

M.Sc. Communications Networks & Cybersecurity · *Aristotle University of Thessaloniki* · Oct 2024 – Oct 2025

Hands-on coursework and practical labs completed

3D CAD Technical Education Program (TEE) · *Technical Education and Training, Greece* · Expected Aug 2026

Advanced training in 3D modeling, CAD design, and technical drafting

EXPERIENCE

Software / ML / Networks Engineering Intern · Oct 2021 – Feb 2022

Loceye I.K.E., Thessaloniki

- Improved deep learning models for eye-tracking and facial feature detection, enhancing inference robustness on embedded systems
- Managed full-stack application server (Django, MongoDB) and containerized services using Docker
- Provided network engineering support and configured IT communications infrastructure

IT Technical Support Technician · Nov 2024 – Sep 2025

PC Service Naoussa

- Built and diagnosed custom PCs with expertise in motherboard, hard drive, and GPU troubleshooting
- Designed NAS and home-server solutions; performed data recovery from damaged storage media
- Provided technical consultation for hardware upgrades and system optimization

PROJECTS & RESEARCH

3D Neural Surface Representation with High-Frequency Encoding · 2023

Deep-learning pipeline for textured 3D reconstruction from sparse images

- Implemented end-to-end solution in Python (PyTorch, CUDA) with sphere tracing and neural rendering
- Diploma thesis project demonstrating state-of-the-art neural rendering techniques

Academic & Open-Source Projects Repository

Ongoing collection of computer vision, neural networks, graphics, and systems engineering projects

- Public portfolio: github.com/harry-filis
- Topics: YOLO, segmentation, GANs, reinforcement learning, IoT, robotics frameworks

TECHNICAL SKILLS

Programming Languages: Python, C/C++, JavaScript, Java, Shell Scripting, SQL, MATLAB/Octave

ML & Computer Vision: PyTorch, TensorFlow, OpenCV, CUDA, Scikit-learn, Keras, YOLOv8, SAM

Web & Backend: Django, Flask, FastAPI, Node.js, Express, React.js, REST APIs

DevOps & Cloud: Docker, Kubernetes, Nginx, AWS, Google Cloud, Git, CI/CD pipelines

Databases: PostgreSQL, MySQL, MongoDB, Redis

Embedded & Hardware: Arduino, Raspberry Pi, STM32 Nucleo, ARM Cortex, PID control, Robotics

Languages: Greek (Native), English (C2 Proficient)

CERTIFICATIONS & TRAINING

Deep Learning and Computer Vision

AIIA Lab, Aristotle University of Thessaloniki

Node.js, Express, MongoDB & More: The Complete Bootcamp

Jonas Schmedtmann (Udemy)

Deep Learning: Advanced Computer Vision (GANs, SSD, Object Detection)

Lazy Programmer Inc. (Udemy)

Wireshark: Packet Analysis and Ethical Hacking — Core Skills

David Bombal (Udemy) — In Progress

WORKSHOPS & CONFERENCES

- Computer Vision & Machine Learning Seminar (CVML) – AIIA Lab, AUTH (Aug 2022)
- SMAuto Workshop | Domain-Specific Languages in IoT – ISSEL Lab, AUTH (Jul 2023)
- Locsys Workshop | No-Code IoT Solutions – ISSEL Lab, AUTH (Dec 2023)
- Arduino Workshops (IEEE Student Branch, DUTH) (Mar 2018, Apr 2019)
- 11th & 12th Student Conference of Electrical & Computer Engineers, Thessaloniki (Apr 2019, Apr 2021)
